Monthly Newsletter For Customers & Employees

New Web Site Ready for Debut!

Pembroke Telephone's Web site, www.pemtelco.com, has been totally revised! Making its debut this month, the new Web site has been rebuilt from top to bottom. Some of the information and links will be familiar to you, like My Online Account and the online local telephone directory, but much of the information is new. "We really looked at it from our subscribers' points of view," said Jeanne McCormick of Pembroke

Telephone. "We want to provide them with as much information and support about our services as we can." One of the highlights of the new Web site will be an entertainment page and current program listings for PAC TV. These are expected to be added around June 20th. The site will be continually augmented, with the next phase including a greatly enhanced Technical Support section. Please take a few minutes and browse through the revised site at www.pemtelco.com. Also check out some tips and highlights of the new site on the newsletter's next page.

Talk. Surf. Watch. All for \$99 a Month!

New subscribers to Pembroke Telephone now can talk on the telephone, watch television and surf the Internet as much as they want for one low price of \$99 a month! With the addition of an unlimited long distance plan and 10 Mbps broadband Internet access, eligible subscribers can try a combination of services found from no other provider in this area. You will receive your local service, unlimited nationwide long distance, our most popular Choice PAC TV package and the fastest Broadband Internet access available in North Bryan County for one low monthly price! Currently limited to new subscribers and those who have only telephone service, the new "triple play" bundle is a great bargain. The all inclusive bundle is \$99 for an introductory period, then subscribers can upgrade or downgrade services as their individual needs dictate. Some people may talk a lot, so they want the unlimited long distance. But maybe they don't use the Internet much, so they can downgrade that service. Depending on the services you select, your bill may not increase even after the introductory period. Call Customer Service today at 653-4389 to get this great \$99 bundle!

Father's Day for Jon and Kate Gosselin is a busy day. Married in 1999, they had a set of twin girls in 2000. After deciding to have one more child, they ended up with sextuplets in 2004. That is six, yes SIX - three boys and three girls. The Gosselin family can be seen regularly on the hit show, Jon & Kate Plus Eight, seen on TLC, PAC-TV channel 118. Check guide for times.

Music Channels on PAC TV

In June, PAC TV will change music program providers. Our previous provider changed selections and eliminated channels frequently. The new provider gives our subscribers a wide array of listening choices, an expanded line up and fewer channel changes. More details of these changes will be provided in next month's newsletter and at pemtelco.com.
